## PRESS RELEASE

### HINGED TOILET ROLL HOLDERS

An ergonomic toilet paper holder may sound like something you don't need unless you have struggled to change a roll. **Perrin & Rowe** have the answer in their new paper holder with a hinged centre rod.

For those who have struggled to fit a new roll of toilet paper, **Perrin & Rowe** has developed a toilet paper holder which incorporates a hinged center rod. This design allows the paper roll to be effortlessly replaced, without the risk of dropping the loose roller and marking the timber or tiled floor. **Perrin & Rowe** also manufactures a simpler model which, when placed vertically, also functions as a holder for a spare roll.

All **Perrin & Rowe** bathroom accessories come in a selection of five finishes: Chrome, Nickel, Pewter (brushed Nickel), Gold and English Bronze, with uncoated bare brass also available. These finishes complement their tapware range. The **Perrin & Rowe** brand is renowned throughout the world for the premium quality of its design and engineering.
