PRESS RELEASE

MIRROR MAGIC

Perrin & Rowe large wall bathroom mirrors come in a range of shapes to cater for all requirements. Select from round, square, oval or octagonal; the latter looks especially stunning in an Art Deco interior. The mirrors have beveled edges and are fitted into beautiful ball mounts on each side which allow the mirrors to be tilted to the right position for the user. These ball mounts are finished in Perrin & Rowe's five finishes - Chrome, Nickel, Pewter (brushed Nickel), Gold and English Bronze - to match the finish on Perrin & Rowe tapware and bathroom accessories.

Perrin & Rowe also make a classical make-up or shaving mirror of the very highest quality, which can be mounted above the vanity. One side is a plain mirror while the other side is magnifying. This mirror which extends, tilts and is height adjustable was traditionally used as a shaving mirror but nowadays women want it to use as a make-up mirror! As with the large wall mirrors, these mirrors can be ordered in a range of five finishes.

Rich in design and detail, like the Perrin & Rowe tapware and bathroomware, these mirrors will create magic in your bathroom or dressing room.
