## THE WATER/ MONOPOLY

### **PARIS**

#### PARIS COLLECTION

Take your bathroom to Paris with this truly romantic collection of baths and basins.

The Paris collection captures the elegance and classic lines of the Belle Epoque, when architecture and design celebrated Art Nouveau, taking inspiration from the soft curves present in nature.

#### THE PARIS BATH

The Paris bath is a reproduction of an early 20th Century French fireclay bath. It is manufactured in England from Vitrite  $^{\text{TM}}$ , a stone and mineral composite with a gloss finish that replicates the look and feel of the original bath but without the weight. It is available with or without the signature Paris bun feet, in two sizes with or without overflow and may be produced in any colour (POA). Paris waste and overflow kit available.

Length: 1665/1778mm Width: 822mm

## MARTHA

## THE MARTHA BATHS

Drawing inspiration from a late 19th Century French double ended bath, the Martha Bath by The Water Monopoly is a luxurious addition to both modern & traditional bathrooms.

With an opportunity to select brass or copper as the bath's base material, finish options include high polish all over, or high polished exterior with tinned interior. The high polished baths are unlacquered to patina naturally over time. This bath has 280 litre capacity and is a two man lift weighs 50kg. Length: 1730mm, Width: 700mm, Height in middle is 620mm, Height on ends is 725mm.

With a deep base and curved sides for additional comfort, the Martha inspires long hours of soaking, preferably with a glass of champagne in hand.
