

THE
WATER/
MONOPOLY

THE WATER/ MONOPOLY

Over the last 30 years, The Water Monopoly has built from their London showroom, an international reputation as a leader in the design and supply of luxury bathroom fittings into some of the world's most beautiful bathrooms.

In Residence is proud to be the exclusive New Zealand supplier of The Water Monopoly with 2027 marking ten years downunder.

This publication has brought together a curated selection of projects that showcase the enduring relevance of the collections across some of the country's most considered interiors.

These projects reflect a broader design sensibility — one that values individuality and layered storytelling, where heritage references are never literal, but continually reimaged through materiality, colour and form.

THE WATER/ MONOPOLY

ROCKWELL COLLECTION

The Water Monopoly Rockwell Tapware range is a celebration of colour, with ceramic handles and shower heads available in an assortment of vibrant candy hues. With its bold curved designs and well-considered selection of colours, Rockwell lends itself to both traditional and contemporary interiors.

The Rockwell Collection is an all-inclusive range including tapware, baths, toilets and basins. The full selection of tapware includes kitchen mixer taps, wall and basin mounted taps, showers, and wall or freestanding bath tapware.

This collection is truly playful, providing the chance to mix and match its wide variety of colours with Chrome, Nickel and Polished Brass metal finishes for serious individuality. Whether fitting out a modest family home or a show-stopping hospitality space, Rockwell will have you covered.

The Core Colours are available across Basins, Toilets and Baths, while the Accent Colours are available in Accessories and Tap Handles only.

Please note the colours of the Rockwell collection will vary slightly across different materials of the vitrite baths, ceramic bathroomware and timber toilet seats.

ROCKWELL COLLECTION

ROCKWELL CORE COLOURS

The Rockwell colour palette is thoughtfully considered to balance cohesion with creativity. Core Colours are available across basins, toilets and baths, as well as tapware and accessories forming a consistent foundation throughout the bathroom.

AVAILABLE ACROSS:

- Baths
- Basins
- Toilets
- Tapware
- Bath Feet
- Basin Stand Feet
- Accessories
- Toilet Seats

ROCKWELL ACCENT COLOURS

Accent Colours are reserved for accessories and tap handles, offering the opportunity to introduce contrast, detail and moments of personality. This layered approach to colour allows for both subtle continuity and playful expression, giving each space a tailored, individual character.

AVAILABLE ACROSS:

- Tapware
- Bath Feet
- Basin Stand Feet
- Accessories

THE WATER/ MONOPOLY

PARIS COLLECTION

The English Tapware Company is taking your bathroom to Paris with a truly romantic collection of bathroomware.

This collection captures the elegance and classic lines of the Belle Epoque, when architecture and design celebrated Art Nouveau, taking inspiration from the soft curves present in nature.

Available in a pure white colourway, the Paris Collection is an unparalleled and sophisticated design offering a complete range inclusive of bidet, wall hung toilet, basin designs and bath.

The Paris bath is also available with or without the signature bun feet, in two sizes and is the only piece that may also be custom coloured.

The bath, by London based company The Water Monopoly, is a faithful reproduction of an early 20th Century French fireclay bath and manufactured in England. Made from Vitrite™, a stone and mineral composite, the look and feel of the original bath is replicated but without the excessive weight.

This collection is undeniably luxurious and seductive, reminiscent of the nostalgic beauty found throughout 19th century France.

THE WATER/ MONOPOLY

LONSDALE COLLECTION

The English Tapware Company is proud to introduce the Lonsdale collection by London based company The Water Monopoly. The distinctive streamlined form of the Lonsdale bathroomware collection offers a sophisticated, timeless appeal. Named after Lonsdale Road, the original London address of The Water Monopoly, the collection is quintessentially British in character — grounded in tradition, yet refined for contemporary interiors.

This range appeals on so many levels; the Lonsdale basin has a spacious top surface and comes in three sizes to allow for consistent design throughout the project. These striking basins can be mounted on the matching pedestal or on a brass basin stand finished to your specification.

Two matching toilets complete the set.

Allowing for effortless refinement, the largest Lonsdale basin has the popular option of attaching towel rails to the sides. Decorative basin overflow covers can also be supplied.

Available in a fresh white colourway, the Lonsdale range will catch your eye, and win your heart. It is the perfect foundation for a sophisticated bathroom setting.

THE WATER/ MONOPOLY

SOHO COLLECTION

The English Tapware Company has released its new Soho bathroom collection. The range is an embodiment of the glamour and sleekness prevalent in early 20th century design.

Named after Soho, New York, this range allows for the same creativity and eclecticism that the once industrial 'cast-iron' neighbourhood now offers today.

Displaying strong form with understated dignity, the Soho bath, basins and wall-hung toilet and bidet are perfect for an individual, modern interior.

To complement the Soho bath are six basins, from pocket-sized powder room to a commanding double vanity console. A matching wall-hung toilet and bidet complete this collection.

The Soho bath by London based company The Water Monopoly, is a reproduction of a 1930's French double ended cast-iron bath tub, a unique and classical design. A straight back edge enables this freestanding bath to be set against a wall in a compact bathroom, while smooth, rounded and sensual curves soften the form. Be seduced.

WHY PURCHASE THE WATER MONOPOLY?

In Residence is the dedicated distributor of The Water Monopoly in New Zealand, with our own showroom in Greenlane, Auckland and distribution nationwide.

Since 2017 In Residence has worked closely with the The Water Monopoly product designers and manufacturing team in England to design and supply products specifically for NZ homeowners and designers.

Whilst the visual appearance of Rockwell taps sold in other countries is visually similar to those made for NZ, many aspects are quite different. Rockwell taps produced for other countries are neither compatible with NZ plumbing fittings nor made in compliance with New Zealand Standards and plumbing regulations. A Registered Plumber cannot therefore install them into a New Zealand home.

Purchasing The Water Monopoly products from In Residence ensures you receive goods that are made for New Zealand and meet our standards and regulatory requirements.

In Residence provides a five year warranty on The Water Monopoly brand baths, basins and toilets, as well as the Rockwell tapware and accessories which it imports and sells in New Zealand. Privately imported product has no warranty here.

SPECIFICATION

Use our website www.inres.co.nz/brands/the-water-monopoly to access Specification Sheets, CAD and to create 'MY LIST' of products for your project. Submit it to us for consultation and we will contact you promptly to consult on your selection, provide a quote valid for 30 days, advise on stock availability and progress your project further.

YOUR ORDER

To confirm your order, we require a 50% deposit to secure stocked items and 100% payment for made-to-order items. All goods must be paid for in full prior to dispatch. For partial dispatches, additional payments may be required depending on delivery schedule.

DELIVERY TIMES

There is no stock warehouse at the factories in England with every product they sell made to order. In Residence endeavours to maintain a consistent level of stock of regularly sold items. If a product is not in stock in our warehouse, the manufacturing time is generally about eight to ten weeks.

Please discuss stock availability with the sales team at In Residence when considering the supply timeline for your project.

RETURNS

Purchased products will be considered for return by In Residence for a period of up to three months after the invoice date. In the event that In Residence agrees to accept a return, a 20% restocking fee may apply. Any product presented for return and/or credit must be unused and in saleable condition, including its original packaging. The packaging must be unmarked and free from labels. Failure to comply with these conditions may result in the return being declined. The cost of return delivery is to be covered by the returner.

FREIGHT CHARGES

There is no freight charge for tapware and accessories from our business to a metro business address within New Zealand. Rural delivery addresses may be subject to a freight contribution. Basins and toilet freight as per table below. Bath freight charges will be calculated on a case by case basis.

Please contact In Residence for further information prior to ordering.

INSTALLATION GUIDES

Tapware installation guides are included in all product boxes.

LOW WATER PRESSURES

Rockwell taps are compatible with most low water pressure installations. To support water conservation regulations, Rockwell kitchen and basin taps are fitted with a flow controlling spout tip aerator. This limits the water output to 6 to 7.5 L/min to give a WELS Four Star rating. This flow rate is based on taps installed into homes with an incoming pressure of 150 to 500 kPa.

When Rockwell kitchen and basin taps are installed into homes with low inlet water pressure of less than 150 kPa, we can change the spout tip aerator to a non-flow controlled version. We can also work with your plumber for unequal hot and cold water pressures.

The single lever shower mixers N9106 requires at least 100 kPa to operate their internal pressure balancing valve. Please contact In Residence for advice on low-water pressure installations.

HANDLE ALIGNMENT

Every ceramic disc valve in a Rockwell tap has an acetal handle alignment vernier positioned between the spindle of the valve and the spline of the handle. This vernier allows fine-tuning of the handle position during assembly and installation, for perfect handle orientation.

HANDLE CHANGEOVER

All Rockwell taps are supplied with matching metal changes, and ceramic colours can be upgraded as requested. These are simple to change-over on site or prior to dispatch.

WARRANTY FOR MANUFACTURING DEFECTS

Rockwell tapware has a five (5) year warranty against manufacturing defects.

WARRANTY FOR CONSUMABLE COMPONENTS

Ceramic disc cartridges incorporated within Rockwell tapware are a consumable item and have a parts replacement warranty for five (5) years from the date of original purchase of the tap. This consumable components warranty provides for the supply of replacement cartridges during this period.

Flexible inlet hoses, handshower non-return valves, O rings, washers and aerator inserts are also consumable components and covered by a five (5) year parts replacement warranty from the date of purchase. This warranty excludes damage caused by misuse, improper installation or vandalism.

COMPLIANCE: LEAD FREE, WATERMARK AND WELS

Behind the craftsmanship is a foundation of engineering that supports both your wellbeing and the environment.

WELS CERTIFICATION

Rockwell kitchen and bathroom tapware has been tested and certified with a WELS Four Star rating under the Water Efficiency Labelling & Standards (WELS) scheme with License number 0150. Rockwell shower fittings outlets have a WELS Three Star rating.

The Water Monopoly toilets supplied with a matching cistern and pan are fitted with high quality Geberit inlet and flush valves. These are operated with a dual flush push button giving 4 litres average flush, 6 litre full flush and 3 litre half flush. They have a WELS Three Star rating under License no. 0150.

The Water Monopoly wall mounted and back-to-wall toilets are designed to be coupled to an in-wall cistern and frame such as made by Geberit Sigma8. When connected to the Geberit Sigma8 4.5/3L in-wall cistern, they achieve a 3.3 litre average flush, 4.5 litre full flush and a 3 litre half flush. They have a Four Star WELS rating under License no. 0150.

WATERMARK: THE SAFETY STANDARD YOU SHOULDN'T IGNORE

The WaterMark Certification Scheme is New Zealand's baseline for plumbing product safety. It ensures that fittings have been independently tested and certified to meet national performance standards.

If a product doesn't carry this mark, it cannot legally be installed by a licensed plumber - no matter where you buy it. It's your first assurance that what's behind the walls and under the sink is safe, durable, and fit for purpose.

All Rockwell products made by Perrin & Rowe comply with:

WaterMark scheme: Licence WMKA02818

Australian standards:

Tapware: AS/NZS 3718:2021

Showers: AS/NZS 3662:2005

LEAD-FREE WATERMARK

This certification confirms that copper alloy components in kitchen and basin tapware contain no more than 0.25% lead by weighted average across all wetted surfaces, aligning NZ regulations with international best practice.

Historically, tapware sold in New Zealand - particularly for KITCHEN and BASIN use - has been manufactured using Dezincification-Resistant (DZR) brass, which typically contains between 1.5% and 2.5% lead. These taps have met long-standing

WaterMark standards, but the new lead-free requirements take health protection even further.

It's important to note that the new rule only applies to tapware used with drinking water. Products like bath-only taps, showerheads, dishwashers, and emergency fittings remain exempt under current guidelines.

Products bearing the Lead-Free WaterMark are clearly marked in this catalogue and noted on our website as LF.

WaterMark - for safety and compliance
WELS - for water efficiency and savings
Lead-Free WaterMark - for added peace of mind
Because the best design choices are the ones that care for what you can't see - your health, your family, and your future.

NEW CODING

The products which will be available in Lead Free going forward are tagged accordingly "AVAILABLE IN LF VERSION 2026" and also listed in this catalogue. The new LF code has a 3 as an additional last digital before the finish suffix. ie AU9197CP will become AU91973CP. To look up in WaterMark register look for 9197-3.
