

IN RESIDENCE

In a Class of Our Own

Our Story

In Residence was established from our love of beautifully-crafted kitchen and bathroom fittings. We are committed to providing unique, premium quality products from an authentic design source. We respect items made using honest materials, designed with perfect proportions and close attention to detail and produced using a combination of craftsmanship and 21st century technology. When these factors come together, they create exceptional products which will stand the test of time.

For over a decade we have provided New Zealand's discerning homeowners, architects and interior designers with our distinctive range of products. We listen to the needs of our clients to source what they seek and we provide a highly personalised service to assist the design and building process to run as smoothly as possible.

If you appreciate style and quality, we invite you to discover our beautiful products and consider the positive impact their inclusion will have on your project.

Stephan Marshall, Director

Timeless Design

Design is a fundamental process that embodies our collections. By carefully combining an aesthetic appreciation of form, scale and detail with engineering prowess, their designers continue to produce the timeless designs that our brands are renowned for worldwide.

Classical Styling

Classical style is unique and not based on a fleeting whim of fashion. Our bathroom collections reflect a harmony of fine design and well-planned functionality. This is why they are specified by top designers and architects round the world, for contemporary and classical bathrooms. They embody the essence of beautiful interiors and like any work of art, are appreciated by the discerning buyer.

Generations of Knowledge

Drawing on generations of knowledge, Perrin & Rowe hand craft bathroomware in the traditional manner; only the best china clay from Cornwall is used and each product is hand glazed, hand finished and fired three times for a lasting, lustrous finish. Perrin & Rowe's signature white glaze has a beautifully smooth, consistent finish that is highly durable and will not craze over time.

Bathroom Catalogue

Our Finishes

Superior Craftsmanship

The quality of our offering is immediately obvious: these are serious bathroom products for people who know the difference. We only support brands where there is an immeasurable commitment to performance and durability with every piece built to last the lifetime of the bathroom. Each item is machined from high quality brass before skilled craftspeople hand polish, electroplate, fully assemble and rigorously test each product, for a superbly finished result.

PERRIN & ROWE
MAYFAIR LONDON

Hawthorn Hill
Luxury Detailing

AQUADOMO

			CP / CP / CP	Chrome: A shiny finish with a hint of blue for a classical or contemporary feel.
			NI / NI / PN	Nickel: A shiny finish with a golden glow. If left, nickel will develop an aged patina similar to silverware, with the occasional polish restoring its original gleam.
			PF / PF / BN	Pewter: A satin (brushed) nickel finish which is the perfect complement to stainless steel sinks and appliances.
			BR / BR / PB	Polished brass: This is uncoated bare brass with a smooth polished finish. Brass oxidises over time to gain a characteristic patina.
			SB / SB / BB	Satin brass: This is uncoated bare brass brushed for a satin look. Brass oxidises over time to gain a characteristic patina.
			IG / IG / IG	Gold: This finish, which contains real Gold, will give a luxurious look.

Handle Options

Luxury you can feel...

Perrin & Rowe allows further customisation of the classical range, offering black glazed porcelain lever and handle inserts, as well as inserts in all of the Perrin & Rowe metal finishes.

White porcelain detailing:

This is standard across the Perrin & Rowe classical range.

Black porcelain detailing:

Available as a custom option across the Perrin & Rowe classical range, to replace all porcelain parts including handshower handles.

Matching metal detailing:

Available as a custom option across the Perrin & Rowe classical range, to replace all porcelain parts including handshower handles.

Classical Basin Taps

Perrin & Rowe traditional basin tapware combines beautiful styling with engineering excellence. Their team of specialist designers is dedicated to perfecting the design of every tap fixture.

At a glance, these bathroom taps emanate quality while closer inspection reveals the incredible attention to detail and precision engineering of every component.

Perrin & Rowe three hole basin taps suit both traditional and modern bathrooms; with a range of lever and crosshead handle tap options and a full range of finishes you are spoilt for choice.

While stunning on a Perrin & Rowe pedestal basin, these basin taps can also be mounted into a marble or granite vanity top up to 45mm thick.

All Perrin & Rowe taps feature German made ceramic disc valves ensuring many years of accurate and effortless use.

Standard white porcelain levers can be changed to black porcelain for a small additional cost.

N3705 - Three hole basin mixer with low spout & levers

N3706 - Three hole basin mixer with low spout & crossheads

N3701 - Three hole basin mixer with high spout & crossheads

N3700 - Three hole basin mixer with high spout & levers

N3720 - Three hole basin mixer with country spout & levers

N3721 - Three hole basin mixer with country spout & crossheads

N3720 - Three hole basin mixer with country spout & levers in chrome finish

Classical Basin Taps

Perrin & Rowe wall mounted, monobloc and pillar basin taps suit both traditional and modern bathrooms; with a range of lever and crosshead handle tap options and a full range of finishes you are spoilt for choice.

While stunning on a Perrin & Rowe pedestal basin, these basin taps can also be wall mounted or mounted on a marble or granite vanity top up to 45mm thick. The monobloc taps can be fitted with an extension kit to fit them onto vanity tops up to 110mm thick.

All Perrin & Rowe taps feature German made ceramic disc valves ensuring many years of accurate and effortless use.

Standard white porcelain levers can be changed to black porcelain for a small additional cost.

N3790 - Wall mounted basin set with country spout & levers

N3791 - Wall mounted basin set with country spout & crossheads

N3560 - Wall mounted basin set with low spout & levers

N3561 - Wall mounted basin set with low spout & crossheads

N3835 - Contemporary monobloc basin mixer with levers

N3521/1 - Bath/shower mixer on freestanding floorlegs with crossheads & handshower in cradle and N6910 - Bathrack in pewter finish

Classical Bath Fillers

There is nothing as luxurious as bathing. The Perrin & Rowe collection of bath fillers offers the ultimate brassware for a freestanding bath.

These Perrin & Rowe bath fillers are available in a range of styles: with or without a handshower in a cradle and with lever or crosshead handles. Although freestanding baths have become the focal point of many bathrooms, choosing a suitable bath filler on floor legs is a serious issue. Getting water into the bath from what is usually a tiled floor over a concrete slab, can present a quandary for the designer and the plumber. When fitting a bath filler on floor legs, pipe work needs to be run in advance and be accommodated by the floor's waterproofing membrane.

Cleverly, the Perrin & Rowe design allows the plumber to run standard sized water pipes under the floor and terminate them with male threads projecting past what will be the finished floor level. The waterproofing membrane is then installed followed by the finished flooring. Once all of the tiling and painting has been completed, the floor legs and bath filler are then connected onto the top of these threads and the freestanding bath installed alongside. The Perrin & Rowe floor legs incorporate on/off valves where they connect at the floor so the floor legs can be removed in the future for redecoration of the room.

N3520/1 - Bath/shower mixer on freestanding floorlegs with levers & handshower in cradle

N3521/1 - Bath/shower mixer on freestanding floorlegs with crossheads & handshower in cradle

N3525 - Bath mixer on freestanding floorlegs with levers

N3526 - Bath mixer on freestanding floorlegs with crossheads

Classical Bath Fillers

These Perrin & Rowe wall mounted and deck or hob mounted bath fillers are as iconic as the freestanding models. Choose from lever or crosshead handles and the option of a hand-shower with hose (made of brass, not plastic), operated by a porcelain diverter lever.

All Perrin & Rowe bath fillers feature excellent German made ceramic disc valves ensuring many years of accurate and effortless use.

Classical bath fillers are available in full range of finishes.

Standard white porcelain detailing can be changed to black porcelain for a small additional cost.

N3510/1 - Bath/shower mixer on wall unions with levers & handshower in cradle

Classical Bath Taps

A well designed and beautifully appointed bathroom is a luxury and the selection of high quality fixtures will ensure it remains so for many years to come.

Perrin & Rowe three and four hole bath tapware is renowned for its design excellence, durability and the quality of its construction. Bath taps and hand shower fittings are machined from brass by English craftsmen, hand-polished and coated in a choice of beautiful finishes.

All Perrin & Rowe three and four hole bath taps feature German made ceramic disc valves ensuring many years of accurate and effortless use.

Classical bath taps are available in full range of finishes.

Standard white porcelain detailing can be changed to black porcelain for a small additional cost.

Shower Sets

Undecided about the components needed to create your perfect Perrin & Rowe shower? Perrin & Rowe offer a range of shower sets for New Zealand homeowners and designers. Choose from one of the following twenty-eight complete shower sets and let us do the hard work – no matter your preferences, there's bound to be one that's just right for you and your bathroom. The hardest choice you'll make is the finish.

The Perrin & Rowe traditional shower sets are available in Chrome, Nickel, Pewter and Gold. They are also available in uncoated bare brass.

The example combinations include options for separate hot and cold crosshead or lever valves or a pressure balanced or thermostatic shower mixer. You are spoilt for choice with the option of a classical handshower on sliding rail, a shower rose from the ceiling or wall, or a combination of both.

Standard white porcelain detailing can be changed to black porcelain for a small additional cost.

If you are after a fully customised shower, you can assemble your own shower layout from the individual shower components.

Shower Set 10D

The Perrin & Rowe exposed riser shower sets are a luxurious statement piece for your bathroom.

For an exposed shower over a bath, choose set 5 with a bath filler outlet, or set 6 for the additional function of a height adjustable handshower on riser pipe.

For a fully integrated shower with thermostatic mixer, select from sets 7D or set 7E for the additional function of a height adjustable handshower on riser pipe.

For a more minimal look that allows for a flexible location of the taps away from the flow of water, consider sets 9A-9D or sets 10A-10D for the additional function of a height adjustable handshower on riser pipe.

Each set is available in Chrome, Nickel, Pewter and Gold.. They are also available in uncoated bare brass.

Standard white porcelain detailing can be changed to black porcelain for a small additional cost.

If you are after a fully customised shower, you can assemble your own shower layout from the individual shower components.

Components

N5204 - Shower rose 310mm with perforated plate

N5555 - Perrin & Rowe concealed dual control thermostatic mixer

Perrin & Rowe offer a range of shower/bath components for New Zealand homeowners and designers. Perrin & Rowe showers aren't prescriptive. So whatever your vision, our wide range of showerheads, valves, mixers, spouts, risers and arms mean you can virtually design your own shower/bath combination.

Shower Arms & Risers

Select from a variety of shower arms mounted on the wall or ceiling. Whether you are retro-fitting or planning a new build, you'll be sure to find a part to suit.

Shower Roses & Handshowers

The shower roses deliver a luxurious rain shower while a hand-shower offers flexibility and an equally satisfying rain style water flow.

The standard shower roses have a perforated plate, whilst easy clean versions are also available. Designed for localities where holes in a perforated plate clog with lime scale, the easy clean shower rose has silicone rubber tips protruding through the perforated plate, designed to self-clean each time the shower is used.

While Perrin & Rowe shower roses and handshowers may give the illusion of high water usage, state-of-the-art controllers limit the flow to ensure efficient and environmentally friendly use. The standard versions of the Perrin & Rowe shower outlets sold in New Zealand are fitted with a water conserving flow controller complying

N5311 - Ceiling shower outlet 100mm
N5312 - Ceiling shower outlet 300mm
N5313 - Ceiling shower outlet 600mm

N5712 - Gooseneck shower arm (*offering additional rose height in a retrofit situation*)

N5384 - Overhead shower arm

N5204 - Shower rose 310mm with perforated plate

N5381 - 90 degree shower riser 1600mm

N5383 - Riser mounted diverter, handshower & sliding handshower bracket

Classical Components

with WELS regulations. When fitted into a high pressure system, the resulting flow rate is 7.5 to 9L/min. When Perrin & Rowe shower outlets are required for a low pressure installation, request a low water pressure version of the showers which will be fitted with different aerators to give same flow rate of 7.5 to 9 L/min.

Shower Valves & Mixers

Perrin & Rowe offer a pair of hot and cold wall valves with German made ceramic disc valves ensuring many years of accurate and effortless use.

While most single shower mixers use the same mixing cartridge as a kitchen tap, the Perrin & Rowe single lever mixer is fitted with a purpose-made pressure balancing valve. This state-of-the-art valve ensures the delivery of a constant, balanced mix of hot and cold water, even if there is a change in the incoming water pressure.

Thermostatic Mixer

Perrin & Rowe are renowned for their beautifully engineered dual-control thermostatic shower mixers. The lower lever of the thermostatic shower mixer sets the temperature with thermostatic control, while the upper lever controls the amount of water leaving the shower outlet.

The exposed thermostatic mixer is designed for use with a riser pipe while the concealed thermostatic mixer supplies pipe work within the wall. They are both superb examples of precision engineering.

N3231 - Wall valve set with crossheads

N3230 - Wall valve set with levers

N5555 - Perrin & Rowe concealed dual control thermostatic mixer

N5550 - Exposed dual control thermostatic mixer

N5506 - Single lever pressure balanced shower mixer

N5591 - Shower riser wall outlet

N3585 - Wall mounted low bath spout

N3785 - Wall mounted country bath spout

N3805 - Wall mounted round bath spout

Outdoor Showers

Perrin & Rowe outdoor showers are essential fittings in luxury holiday spots around the world, including Dolphin Island Resort Fiji, and Sandy Lane Resort & Spa in Barbados.

Tapware and shower fittings for outdoor use need to withstand harsh climatic conditions. Perrin & Rowe tapware and shower fittings, engineered from premium quality brass will not deteriorate over time. Exposed to the elements, uncoated bare brass will develop a characteristic bronze patina with no loss of functionality.

Install a bare brass outdoor shower at your beach house or country retreat and leave the elements to work their magic.

Uncoated polished or satin bare brass tapware is also becoming a feature in al fresco kitchens. When left uncoated, high quality brass develops a rich patina which complements organic materials like timber, marble and limestone.

We stock the following sets in bare brass and can order other models in bare brass on request:

Perrin & Rowe Example Shower Set
1A in uncoated bare brass

Perrin & Rowe Example Shower Set
3A in uncoated bare brass

Perrin & Rowe Example Shower Set
4A in uncoated bare brass

Bare brass patina after one month (top) and ten months (bottom) installed outside - Perrin & Rowe Example Shower Set 4A in polished brass (*Set 4A also includes N5542 diverter not shown*).

Deco Shower Components

pressure installation is 7.5 to 9 L/min. When Perrin & Rowe shower outlets are required for a low pressure installation, request a low water pressure version of the showers which will be fitted with a different aerator to give the same flow rate of 7.5 to 9 L/min.

Shower Valves & Pressure Balanced Shower Mixers

Perrin & Rowe offer separate hot and cold wall valves with German made ceramic disc valves ensuring many years of accurate and effortless use. Combination mixers are available for use with riser pipes or to connect to a handshower.

A sought-after alternative is the Perrin & Rowe single lever pressure balanced shower mixer which is a beautiful example of high quality engineering. While most other shower mixers use the same mixing cartridge as a kitchen tap, the Perrin & Rowe single lever shower mixer is fitted with a purpose-made pressure balancing valve. The valve is sensitive to changes in incoming water pressure and thus provides a constant, balanced flow and safe showering. This state-of-the-art feature in the Perrin & Rowe single lever shower mixer delivers a constant, balanced mix of the hot and cold water, even if the delivery pressure of one of them changes. In the event of a drop in the hot or cold water supply, the output will immediately reduce to the pressure of the lowest supply line.

Basin Stands for Vanity Tops

Hawthorn Hill
Luxury Detailing

Whether you're doing a complete home makeover, or simply want to refresh an existing room, In Residence can provide beautiful fittings tailored to your specific needs.

If it's a basin stand you're after, we will work with you to ensure a unique look and feature in your project. Choose from Ornate, Traditional or Contemporary styles with option for a shelf. We can customise to any length, height and depth you require. Each item is hand made to order by English craftspeople.

For 2 and 3 legged basin stands we recommend adding the Hawthorn Hill single or double length support angle bracket to your order to support the vanity top against the wall.

Hawthorn Hill basin stands and matching towel warmers are crafted from premium grade brass and finished in chrome, nickel, pewter (brushed nickel), gold, antique brass, bronze, gun metal and polished or satin brass.

Ornate Pointed, Tapered, Stepped, Ball and Tubular feet options:

Art Deco Suite

With its generous proportions and elegant, timeless styling, Art Deco chinaware works equally well in both contemporary and traditional bathroom schemes. Single, two and three hole basins are available. Toilets are close coupled.

Art Deco Basins

Perrin & Rowe 630mm Art Deco basin and 525mm powder room basins can be fitted into a vanity unit, placed on a pedestal or mounted on a Hawthorn Hill basin stand. Perrin & Rowe pedestals are open at the bottom ensuring the waste pipe can be concealed within it. Hawthorn Hill basin stands are an elegant option for bathroom vanities.

Art Deco Toilets

Perrin & Rowe Art Deco toilets are made in the P (rear outlet) and S (bottom outlet) trap styles. Specify S or P version at the time of ordering. Perrin & Rowe floor mounted toilets are fitted with the latest high quality Geberit inlet and flush valves. These are operated with a dual flush push button giving a 6 litre full flush and a 3 litre half flush. They have a WELS 3 Star rating.

Perrin & Rowe toilet seats are available to fit on the Perrin & Rowe toilet pans.

Edwardian Suite

Feminine but not fussy, with soft curving detail, Edwardian chinaware is perfect for classical, new romantic and country-chic bathroom schemes.

Edwardian Basins

Perrin & Rowe large 620mm, medium 520mm, and powder-room 410mm basins can be placed on a pedestal or mounted on a Hawthorn Hill basin stand. Perrin & Rowe pedestals are open at the bottom ensuring the waste pipe can be concealed within it. Hawthorn Hill basin stands are an elegant option for bathroom vanities.

Edwardian Toilets

Perrin & Rowe Edwardian toilets are made in the P (rear outlet) and S (bottom outlet) trap styles. Specify S or P version at the time of ordering. Perrin & Rowe floor mounted toilets are fitted with the latest high quality Geberit inlet and flush valves. These are operated with a dual flush push button giving a 6 litre full flush and a 3 litre half flush. They have a WELS 3 Star rating.

Victorian Suite

The Doric form and classic, understated lines of Victorian chinaware makes it the ideal choice for ornate or eclectic, European-look bathrooms.

Victorian Basins

The Perrin & Rowe Victorian 630mm basin and 410 powder room basin can be fitted into a vanity unit, placed on a pedestal or mounted on a Hawthorn Hill basin stand. Perrin & Rowe pedestals are open at the bottom ensuring the waste pipe can be concealed within it. Hawthorn Hill basin stands are an elegant option for bathroom vanities.

Victorian Toilets

Perrin & Rowe Victorian toilets are made in the P trap style (rear outlet). They can be used as S pans by fitting a white McAlpine elbow to the outlet. If this is needed, you can request it to be supplied with the pan at no extra cost. Perrin & Rowe floor mounted toilets are fitted with the latest high quality Geberit inlet and flush valves. These are operated with a dual flush push button giving a 6 litre full flush and a 3 litre half flush. They have a WELS 3 Star rating. Perrin & Rowe wall mounted toilets are designed to be fitted to an in-wall cistern and frame such as made by Geberit. When connected to the Geberit 4.5/3L in-wall cistern, they achieve an incredible WELS 4 Star rating.

Perrin & Rowe Victorian 630mm handbasin & pedestal - N2861 (1 hole) / N2862 (2 holes) / N2863 (3 holes) and N2864 (Pedestal) or HHRS-VIC-630-RP (Basin Stand)

Bidets & Bidet Taps

Bidets

Perrin & Rowe bidets, just like their matching toilets, are handcrafted in the traditional manner by teams of experienced craftsmen. Only the best china clay from Cornwall is used and each bidet bowl is hand glazed, hand finished and fired three times for a lasting, lustrous finish - assurance that it is of the highest quality available and deserving of placement into the best homes. Perrin & Rowe's signature white glaze gives a beautifully smooth, consistent finish that proves to be highly durable and will not craze over time.

The Perrin & Rowe bidet models form part of their Edwardian and Victorian bathroomware suites which also include matching pedestal hand basins, powder room basins and toilets.

Towel Warmers

Ornate Styling

Traditional Styling

Contemporary Styling

Hawthorn Hill towel warmers are truly beautiful pieces of engineering which stand out as a design statement in your bathroom, adding luxury and warmth. Made in England to order, these hand crafted & hand finished heated towel rails are premium brass fittings with 32mm tube with concealed mounts.

Hawthorn Hill towel warmers are available with either an electrical element or with taps for connection to a hydronic central heating system.

We offer Hawthorn Hill towel warmers with standard 240v 6 metre cabling in top right position. Alternatively we can offer a 12v heating option with 6m cabling.

Wall mounted towel warmers have 2 fixing points in the wall. Floor mounted towel warmers have 2 fixing points in the wall at the top, and 2 into the floor at the bottom. The arched towel warmer has 4 fixing points in the floor.

We offer standard and custom options across the Hawthorn Hill collections.

- Solid marble outer with steel core inner tube
- Install heated or unheated

Marble Towel Rails

Bianco Carrara Venatino

Bardiglio Nuvolato

Giallo Sienna

Calacatta Gold

Nero Marquina

The Marble Heated Towel Rail Collection by Hawthorn Hill is the ultimate in bathroom opulence. Providing an unrivalled element of residential luxury, these hand-crafted towel rails will warm your towels and elevate your bathroom to the next level.

Made in England and produced specifically with Australasian homes in mind, these hand-finished premium quality towel rails boast a solid marble outer, with an internal heating line running through a steel tube core. The concealed wall mounts guarantee a flawless installation.

Choose from a selection of marble finishes, including streaky midnight black Nero Marquina, classic Bianco Carrara Venatino, gold washed Giallo Sienna, distinctively veined deep grey Bardiglio Nuvolato or creamy Calacatta Gold. These brilliant stones are timeless and modern, intended to complement both traditional and contemporary bathrooms. Partner these marble rails up with brass wall mounts finished in Chrome, Nickel, Pewter, Gold, Bronze, Satin Brass, Polished Brass, Antique Brass or Gun Metal.

With the opportunity to mix and match these versatile metallic textures with natural marble colourways, Hawthorn Hill has ensured this range of luxury towel rails is a complete showstopper.

Ornate Styling

Traditional Styling

Contemporary Styling

There is a strong likelihood that at some time in our life our mobility – or that of a friend or relative – will be compromised. In the event this disability is permanent, affecting ambulation and transfers within the home, support rails become a necessity. Hawthorn Hill's Grab Rail Collection delivers the opportunity to add this support, without compromising interior aesthetics.

The Hawthorn Hill range of luxury Grab Rails are designed to complement existing fittings in the bathroom and also look stylish in other settings, such as the kitchen or bedroom. They are available as either straight rails or L-shaped left or right-handed designs, in Contemporary, Traditional and Ornate styling.

Hand crafted in the UK from premium brass, they are finished to perfection in one of the Hawthorn Hill finishes: Chrome, Nickel, Brushed Nickel, Gold, Bronze, Polished Brass, Satin Brass, Antique Brass and Gun Metal.

Hawthorn Hill grab rails are tested for compliance with the New Zealand Standard for Access and Disability, ready for installation into New Zealand and New Zealand homes. They are moisture resistant, allowing them to be placed in showers and over baths, where they are most needed. They can be earthed to reduce static and electricity build-up, a requirement when fitted in wet areas. Available in a range of sizes and layouts, Hawthorn Hill Grab Rails can also be customised to combat any potential bathroom constraints.

These superior grab rails are a classy alternative to the basic, industrial fittings commonly prescribed for this purpose, offering stylish function where assistance is needed.

Configuration	H	W	D

Bottle & Sponge Baskets

Perrin & Rowe offer a range of shower accessories; shower caddies in the form of rectangular baskets, as well as single and two tier corner baskets. Choose from a rectangular basket 260mm or 510mm long. Sponge baskets are shallower for soap and sponges, whilst the bottle baskets are deep enough to hold tall shampoo bottles.

The Perrin & Rowe baskets fix to the wall mounts with a unique swivelling double-ball design to ensure the mounts always sit flat against the wall, regardless of whether the corner is square or wall tiling flush. This feature allows all baskets to be fitted into a corner of a shower or over a bath.

Bath Stands

Hawthorn Hill offer rectangular and square shelf Bath Stands to add a stylish and functional touch to your bathing experience.

N6452 - Contemporary 260mm bottle basket 75mm deep

N6954 - 260mm glass shelf

N6956 - 260mm sponge basket 50mm deep - Internal width 117mm

N6952 - 260mm bottle basket 75mm deep - Internal width 72mm

N6955 - 510mm sponge basket 50mm deep - Internal width 117mm

N6951 - 510mm bottle basket 75mm deep - Internal width 72mm

N6962 - 510mm bottle basket 75mm deep & soap tray - Internal width 92mm

Towel Rings

The Perrin & Rowe towel rings are perfect beside a vanity for easy access to a hand towel.

Glass Shelves

Perrin & Rowe offer glass shelves 260mm or 510mm long.

The Perrin & Rowe glass shelves fix to the wall mounts with a unique swivelling double-ball design to ensure the mounts always sit flat against the wall, regardless of whether the corner is square or wall tiling flush. This feature allows all shelves to be fitted into a corner of a shower or over a bath.

Towel Rails & Grab Rails

Perrin & Rowe's stylish towel rails offer the perfect wall spacing for even the plushiest towels. These towel rails can be shortened to suit any space and are available as single or double rails.

N6935 - Towel ring

N6953 - 510mm glass shelf

N6140 - Deco 450mm towel rail (536mm long)

N6141 - Deco 610mm towel rail (695mm long)

N6142 - Deco 760mm towel rail (845mm long)

Accessories

Perrin & Rowe bathroom accessories are made in England to time-honoured standards of engineering excellence and are among the finest in the world.

All components are engineered from high quality brass, hand finished and polished before being electroplated in beautiful finishes: chrome, nickel, pewter, gold, English bronze. Also available as uncoated polished brass or satin brass. These finishes complement the Perrin and Rowe range of luxury traditional kitchen and bathroom tapware.

The elegant styling of the bathroom accessories range ensures that each piece looks stunning in both traditional and contemporary bathrooms and the superb quality and attention to detail assures them a place among the design classics.

To ensure optimum functionality and beauty, no effort has been spared in the development of Perrin and Rowe bathroom accessories. The wall mounts on the range of baskets, hooks, towel rails, towel racks, soap dishes and mirrors have no visible screws to collect grime and are fixed over discs designed to be mounted to any wall surface.

Toilet Accessories

Toilet Paper Holders

For those who have struggled to fit a new roll of toilet paper, Perrin & Rowe's hinged bar toilet roll holder incorporates a hinged centre rod. This design allows the paper roll to be effortlessly replaced, without the risk of a loose roller dropping and marking the timber or tiled floor.

Perrin & Rowe's simple paper holders are available with single or double roll capacity. When installed vertically, the simple paper holder transforms into a spare paper holder.

Toilet Brushes

The Perrin & Rowe toilet brushes are of outstanding quality, with lustrous porcelain inserts and brass body coated in your choice of Perrin & Rowe finishes. The toilet brushes themselves are black, a step away from the conventional white, providing an aesthetically pleasing feature of your bathroom experience.

N6960 - Classical hinged bar paper holder

N6448 - Contemporary hinged bar paper holder

Flush Plates & Toilet Seats

Perrin & Rowe toilet seats are hand made in England from solid timber. The hinges are machined brass and available in chrome, nickel, pewter, gold, bronze and bare brass finish. The hinges feature Perrin & Rowe porcelain indices and sliding rail fixings to ensure the perfect fit on your Perrin & Rowe pan.

Seats can also be custom-made to fit existing pans. Detailed dimensions of pan required prior to ordering.

Seats are sprayed with a highly durable acid catalyst lacquer with hand sanding between coats for the highest quality finish.

Every seat is unique. The grain in the seats will vary due to the natural properties of the timber.

Available to suit specific pans:

N8100 - Perrin & Rowe toilet seat for Art Deco pan*

N8200 - Perrin & Rowe toilet seat for Edwardian pan*

N8300 - Perrin & Rowe toilet seat for Victorian pan*

Why purchase Perrin & Rowe made for New Zealand?

In Residence is the dedicated distributor of Perrin & Rowe tapware in New Zealand, with our own showroom in Greenlane, Auckland and a network of resellers around the country.

In Residence works closely with the Perrin & Rowe product designers and manufacturing team in England to design and supply products required by New Zealand homeowners and designers.

Whilst the visual appearance of Perrin & Rowe taps sold in other countries is similar to those made for New Zealand, they can be quite different.

Taps produced for other countries are not made to New Zealand Standards and a registered plumber is not able to install them into a New Zealand home.

Purchasing Perrin & Rowe products from In Residence ensures you receive goods that are compatible with New Zealand plumbing fittings and WELS regulations.

In Residence provides a five year warranty on all Perrin & Rowe tapware, accessories and bathroomware which it imports and sells in New Zealand. Privately imported product has no warranty here.

WELS: Water Efficiency Labeling and Standards

The New Zealand Government's Water Efficiency Labelling & Standards (WELS) scheme is designed to reduce water consumption and applies to kitchen taps, basin taps, showers and toilets, as well as other water using appliances.

All Perrin & Rowe kitchen and basin taps, shower outlets and toilets sold by In Residence comply with WELS requirements.

New Zealand Standards

Perrin & Rowe tapware imported by In Residence meets the performance requirements of the tapware Standard AS/NZS 3718:2005 Water Supply - Tap ware.

Our Perrin & Rowe toilets comply with AS 1172.1-2005 Water closets (WC) – Pans and AS1172.2-1999 Water closets (WC) – Cisterns while Perrin & Rowe bidets comply with AS 3494 – 1997 Bidettes and bidets.

Stock in New Zealand

Perrin & Rowe does not keep any stock of its products in England and manufactures to our orders. In Residence endeavours to maintain a consistent level of stock of regularly sold items in the Chrome, Nickel and Pewter finishes. We have a small stock of the other finishes and will need to arrange for large orders of these finishes to be made for us in England. If a product is not in stock or custom orders are requested, the manufacturing time is generally 6-8 weeks.

Construction

Unlike some modern tapware that is made from chrome coloured plastics or aluminium alloys, Perrin & Rowe taps are still made from solid brass. Brass has proven to be the ultimate material for tapware, withstanding years of constant use and temperature variation without cracking or distortion.

Ceramic disc valves

Superseding conventional tap washers, Perrin & Rowe taps are fitted with ceramic disc valves, operating with a quarter turn from off to on. The Perrin & Rowe shower mixer is fitted with a special pressure balancing ceramic disc cartridge which provides smooth rotational movement between hot and cold flow and between off and on positions. All valves and cartridges will provide many years of effortless and drip-free operation, are easily and inexpensively replaced and have a five year warranty.

Installation

Minimum inlet water pressure:

Single lever shower mixers and kitchen taps with a spray rinse have a minimum inlet water pressure to activate their internal mechanisms: 1 bar / 100 kPa.

There is no minimum inlet water pressure for standard taps.

Maximum inlet water pressure:

5 bar / 500 kPa

Maximum inlet water temperature:

85° Celsius

The English origin and superb engineering of Perrin & Rowe bathroom taps mean that they can be used in homes with either equal or unequal inlet water pressure, where there is low pressure from a supply tank. The exception is the pressure balanced shower mixer N.5506 which requires equal inlet water pressure. Please advise In Residence if you are purchasing tapware or shower fittings for installation into homes with low or uneven inlet pressures and they can be supplied set for this situation.

Handle Alignment

At Perrin & Rowe every detail counts. Every ceramic disc valve in a Perrin & Rowe product has an acetal handle alignment vernier positioned between the spindle of the valve and the spline of the handle. This vernier allows fine-tuning of the handle position during assembly and installation, for perfect handle orientation.

Warranty

Perrin & Rowe tapware has a five year warranty against manufacturing defects.

Delivery

We will endeavour keep Chrome, Nickel, Polished Nickel, Brushed Nickel, Polished Brass and Brushed Brass Sigma8 plates in stock in our Melbourne warehouse. Aquadomo warehouse overseas carries stock, so we can provide these products within two to three weeks if they are not available in stock at time of ordering.

Hawthorn Hill is proudly hand crafted & hand finished in England and offers exceptional quality luxury detailing.

We offer a custom design service to help you achieve your results.

Finishes

Hawthorn Hill Towel Warmers, Basin Stands & Accessories are available in Chrome, Nickel, Pewter (Brushed Nickel), Antique Brass, Bronze, Gun Metal, Gold, Polished Brass and Satin Brass.

Finish: Suffix:

Chrome	CP
Nickel	NI
Pewter	PF
Gold	IG
Antique Brass	AB
Bronze	BZ
Gun Metal	GM
Polished Brass	BR
Satin Brass	SB

Delivery Times

There is no stock warehouse at the Hawthorn Hill manufacturer in England with every product made to order. In Residence orders in advance and maintains good stock levels in New Zealand for the majority of products and finishes. There will be times however, when higher than expected sales or demand for particular items will deplete our warehouse stock. We therefore encourage appropriate forward planning and that you communicate your project requirements at the earliest convenience.

Returns

Purchased products will be considered for return by In Residence for a period of up to six months after the invoice date. In the event that In Residence agrees to accept a return, a 20% restocking fee may apply. Any product presented for return and/or credit must be unused and in saleable condition, including its original packaging. The packaging must be unmarked and free from labels. Failure to comply with these conditions may result in the return being declined.

Freight Charges

There is an additional freight charge for Hawthorn Hill large items within New Zealand. Look for our FREE SHIPPING icon on ranges that offer this service. Please contact In Residence for further information.

Custom Designs

We offer a custom design service to help you achieve your results. We can work with you on a specific design to suit your space. Please ask one of our sales team for a custom design consultation. Available for Basin Stands, Mirrors and Towel Warmers.
