## 2024

IN RESIDENCE

Since 1929, Armac Martin has been dedicated to creating designed luxury brass hardware and accessories.

With humble beginnings as the business of local brass founder Harold McGrail who manufactured reproduction furniture fittings, Armac Martin is now an award-winning, fourth-generation family business and a leading name in the luxury interiors industry.

We believe in exceptional design and exquisite detail; in celebrating true craftsmanship and in the art of using the finest materials to form made-to-last brass hardware, shelf brackets, mirrors and more.

Our reputation is built on both heritage and craftsmanship and our innovative brass products are favoured by architects, designers, property developers and customers the world over.

# Finishes - Care & Maintenance

- 1 Wipe product gently with a lint-free cloth.
- 2 Do not use abrasive cloths or cleaners.
- 3 Keep your hardware dry to avoid discolouration.

**Satin chrome plate  
(SCP)**

The occasional use of a damp cloth and mild detergent is recommended to maintain and preserve the finish. Hardware should be left dry to prevent staining the brass.

This block features a close-up image of a single hardware piece with a satin chrome finish. The piece is a round knob mounted on a square base. The surface has a matte, brushed appearance. Below the image is the product name and a short paragraph of care instructions.

**Polished chrome plate  
(PCP)**

The occasional use of a quality metal polish is recommended to preserve the finish.

This block features a close-up image of a single hardware piece with a polished chrome finish. The piece is a round knob mounted on a square base. The surface is highly reflective and mirror-like. Below the image is the product name and a short paragraph of care instructions.

# Finishes - Care & Maintenance

**Polished nickel plate  
(PNP)**

The occasional use of a quality metal polish is recommended to preserve the finish.

**Hand burnished nickel  
(HBN)**

The occasional use of a damp cloth and mild detergent is recommended to gently remove any dirt.

**Satin nickel plate  
(SNP)**

The occasional use of a damp cloth and mild detergent is recommended to maintain and preserve the finish. Hardware should be left dry to prevent staining the brass.

**Aged nickel  
(NBP)**

We would advise cleaning this finish as little as possible. The occasional use of a damp cloth and mild detergent is recommended to gently remove any dirt and hardware should be left dry to prevent staining the brass.

**Aged brass  
(BEL)**

Our antique unlacquered finishes are designed to naturally oxidise and therefore this finish will age and change in appearance over time. The occasional use of a damp cloth and mild detergent is recommended to gently remove any dirt. All hardware must be left dry to prevent staining.

**Fine English antique  
(FEA)**

Our antique unlacquered finishes are designed to naturally oxidise and therefore this finish will age and change in appearance over time. The occasional use of a damp cloth and mild detergent is recommended to gently remove any dirt. All hardware must be left dry to prevent staining.

**Hand burnished brass  
(HBB)**

The occasional use of a damp cloth and mild detergent is recommended to gently remove any dirt.

**Polished brass unlacquered  
(PBUL)**

The occasional use of quality metal polish is recommended to preserve the finish. Alternatively, you can leave the handle to age and develop a natural patina over time.

# Finishes - Care & Maintenance

**Polished brass lacquered  
(PBL)**

The occasional use of a damp cloth and mild detergent is recommended to maintain and preserve the finish. Hardware should be left dry to prevent staining the brass.

**Satin brass lacquered  
(SBL)**

The occasional use of a damp cloth and mild detergent is recommended to maintain and preserve the finish. Hardware should be left dry to prevent staining the brass.

**Satin brass satin lacquered  
(SBSL)**

The occasional use of a damp cloth and mild detergent is recommended to maintain and preserve the finish. Hardware should be left dry to prevent staining the brass.

**Satin brass unlacquered  
(SBUL)**

The occasional use of a damp cloth and mild detergent is recommended to maintain and preserve the finish. Hardware should be left dry to prevent staining the brass.

**Satin antique satin lacquered  
(SAS)**

The occasional use of a damp cloth and mild detergent is recommended to maintain and preserve the finish. Hardware should be left dry to prevent staining the brass.

**Dark aged brass  
(DAB)**

Our antique unlacquered finishes are designed to naturally oxidise and therefore this finish will age and change in appearance over time. The occasional use of a damp cloth and mild detergent is recommended to gently remove any dirt. All hardware must be left dry to prevent staining.

**Dark bronze  
(DBZ)**

Our antique unlacquered finishes are designed to naturally oxidise and therefore this finish will age and change in appearance over time. The occasional use of a damp cloth and mild detergent is recommended to gently remove any dirt. All hardware must be left dry to prevent staining.

**Matt black lacquered  
(MBL)**

The occasional use of a damp cloth and mild detergent is recommended to maintain and preserve the finish. Hardware should be left dry to prevent staining the brass.
