Kitchen

## The Perrin & Rowe story

Thirty years ago in London, Bob Perrin & Greg Rowe had a vision to design and produce the highest quality kitchen and bathroom tapware. Their vision was to create original and authentic designs and to manufacture them using the best materials and the latest engineering technology. Bob & Greg wanted to take tapware beyond utility; to inject style, creativity and desirability into everyday objects. Their love of design and innovation led them to develop many of today's design classics and a range of patented tapware inventions.

The Perrin & Rowe brand became recognised as a world leader in premium quality tapware and bathroom accessories. Embracing innovation and new product development, the range now includes bathroomware and contemporary tapware. All Perrin & Rowe products are still designed and made in their own factories in England by a company that values the skills of its staff and focuses on the perfection of each product it designs, makes and delivers.

Perrin & Rowe is the real thing. Authentic designs, classical styling and engineering excellence ensure that each product will stand the test of time and provide years of enjoyment.

# In a class of their own

## Timeless design

Original and authentic design is the cornerstone of the Perrin & Rowe brand. With their appreciation for the finer aspects of scale, form and detail and passion for precision engineering, Perrin & Rowe continue to produce the timeless designs for which they are renowned worldwide.

## Classical styling

Classical style is unique and not based on a fleeting whim of fashion. Perrin & Rowe's traditional and contemporary taps reflect a harmony of fine design and well-planned functionality. It is for this reason that Perrin & Rowe taps and fittings are specified by the world's top designers and architects. They encapsulate the essence of style and like any work of art, are appreciated by the discerning buyer.

## Superior craftsmanship

The quality of a Perrin & Rowe kitchen tap is immediately obvious; its distinctive, clean lines and flawless finish exhibit all the hallmarks of design excellence. At Perrin & Rowe there is an immeasurable commitment to performance and durability with every tap built to last the lifetime of the kitchen. Every component is machined from high quality brass before their skilled craftsmen hand polish, electroplate, assemble and rigorously test each product to achieve the impeccable Perrin & Rowe trademark finish.

## Finishes & handle options

Perrin & Rowe offers New Zealand designers and home owners a wide selection of premium quality finishes. The Classical & Country kitchen tap collections are available in Chrome, Nickel, Pewter, Gold, and English Bronze finishes. Satin or polished uncoated bare brass also available by special order.

The Contemporary kitchen tap collection is available in Chrome and Pewter finishes. Satin or polished uncoated bare brass also available by special order.

**Chrome:** A shiny finish with a hint of blue for a classical or contemporary feel.

**English Bronze:** A satin, rich chocolate brown finish for a bold, distinctive look.

**Nickel:** A shiny finish with a golden glow. If left, Nickel will develop an aged patina similar to silverware, with the occasional polish restoring its original gleam.

**Satin brass:** This is uncoated bare brass brushed for a satin look.

**Polished brass:** This is uncoated bare brass in its natural form.

**Pewter:** A satin (brushed) Nickel finish which is the perfect complement to stainless steel sinks and appliances.

**White porcelain handles:** Standard across the range.

**Gold:** This finish, which contains real Gold, will give a luxurious look.

**Black porcelain handles:** Available at a small additional cost.

# A solution for every space

Perrin & Rowe provide a seamless design solution for the any kitchen.

Each collection includes standard, spray rinse, Triflow and bar sink models to cater for multiple work stations whilst providing consistent styling throughout the kitchen.

Monobloc taps

Perrin & Rowe monobloc taps are available as single lever or twin lever.

Bridge style taps

The bridge style mixer is perfect for wide sinks and as a feature on an island. Choose between lever or crosshead handles.

Bar sink taps

The bar sink taps are specially designed with a shorter reach spout to suit the scale of a small prep sink, bar sink or kitchenette.

Spray rinse taps

Spray rinse kitchen taps are popular and highly functional fittings that make light work of washing the dishes, rinsing vegetables or filling pots and vases. Read more p38.

Triflow taps

With their ground-breaking internal workings, Triflow taps are the world's first three-way taps, dispensing not only hot and cold tap water, but also filtered water. Read more p39.

Water filter taps

Perrin & Rowe provide stunning water filter taps for your kitchen, bar or bathroom. Read more p38.

Soap dispensers

Add a functional finishing touch with a matching soap dispenser for the ultimate workstation. Read more p41.

Pot fillers

Perrin & Rowe pot fillers are mounted on the wall behind or near the stove top. Read more p39.

# Io with levers or crossheads

An inspiring fusion of classic style and contemporary flair, the Io bridge style tap is the epitome of elegant minimalism.

The Io is available in chrome, pewter, satin brass or polished brass and in a spray rinse version (p38).

N.4293 - Io with levers

Perrin & Rowe have designed a collection of contemporary bench-mounted, wall-mounted and freestanding detergent or soap dispensers complementary to their tap models (p41).

N.4292 - Io with crossheads

N.4272 - Io with crossheads and spray rinse

# Mimas

Contemporary styling and asymmetry make the Mimas a sought after tap for modern kitchens. Choose the round 'C' spout or square 'U' spout and position the handle to the side or front.

The Mimas is available in chrome, pewter, satin brass or polished brass and in a spray rinse version (p38).

Perrin & Rowe have designed a collection of complementary contemporary bench-mounted, wall-mounted and freestanding detergent or soap dispensers (p41).

N.4841 Mimas with C spout

N.4846 Mimas with C spout & spray rinse

N.4843 Mimas with U spout

N.4848 Mimas with U spout & spray rinse (shown)

N.4846 Mimas with C spout & spray rinse

# Oberon

The Oberon perfectly illustrates the balance of function and contemporary design. Highly ergonomic with twin levers, this is the future style of kitchen taps.

The Oberon is available in chrome, pewter, satin brass or polished brass and with or without spray rinse (p38) and either a round 'C' spout or square 'U' spout.

N.4863 - Oberon with U spout

Perrin & Rowe have designed a collection of complementary contemporary bench-mounted, wall-mounted and freestanding detergent or soap dispensers (p41).

N.4868 - Oberon with U spout & spray rinse

N.4861 - Oberon with C spout

N.4866 - Oberon with C spout & spray rinse (shown)

N.4868 - Oberon with U spout & spray rinse

# Rubiq

The Rubiq with its square body, levers and spout is perfect for those who prefer a tap with cubic form.

The Rubiq is produced in standard and Triflow models (p39) and both are available in a version with a spray rinse (p38). The Rubiq spray rinse handle and bench mount are also square to complement the tap.

Rubiq taps are available in chrome, pewter, satin brass or polished brass.

N.4210 - Rubiq

Perrin & Rowe have also designed a matching Rubiq bench mounted detergent or soap dispenser to complete the Rubiq collection (p41).

N.4310 - Rubiq with spray rinse

N.1208 - Rubiq Triflow  
N.1209 - Rubiq Triflow with spray rinse (shown)

N.1209 - Rubiq Triflow with spray rinse

# Orbiq

The Orbiq is the archetypal contemporary kitchen tap with a cylindrical body, round levers and a curved spout.

The Orbiq is offered as a standard tap, as a bar sink model with a shorter reach, as a Triflow model (p39) and with optional spray rinse (p38). The Orbiq spray rinse handle and bench mount are cylindrical to perfectly harmonise with the tap.

The Orbiq is available in chrome, pewter, satin brass or polished brass and in a spray rinse version (p38).

N.4212 - Orbiq

Perrin & Rowe have also designed an Orbiq bench mounted detergent or soap dispenser to complete the Orbiq collection (p41).

N.4312 - Orbiq with spray rinse

N.4213 - Orbiq bar sink tap (short reach spout)

N.1212 - Orbiq Triflow (shown)  
N.1213 - Orbiq Triflow with spray rinse

N.4460 - Phoenician with porcelain levers in Pewter finish

N.4173 - Ionian with porcelain levers and spray rinse in satin brass

# Phoenician

The ubiquitous Phoenician is the ultimate choice for the busy cook who wants a single-hole tap. A quick flick of the levers gives hot or cold water as required. The symmetry and versatility of the Phoenician kitchen tap sees it perfectly placed in a range of kitchens from contemporary to country.

The Phoenician is available in five models: the standard version with and without a spray rinse, a bar sink model with a shorter reach spout and Triflow models (p39) with and without a spray rinse (p38).

The white porcelain lever handles can be changed to metal, black or cream levers (p42).

N.4460 - Phoenician with porcelain levers

N.4711 - Phoenician bar sink tap with porcelain levers (short reach spout)

Perrin & Rowe have designed a collection of complementary detergent or soap dispensers. These are available in bench-mounted, wall-mounted and freestanding models (p41).

N.1460 Phoenician Triflow tap

N.1560 - Phoenician Triflow tap with spray rinse (shown)

N.4360 - Phoenician with porcelain levers and spray rinse

# Parthian

The Parthian is the quintessential tap for those who want a single lever tap which displays timeless classical styling.

The Parthian is available in four models: the standard version with and without a spray rinse, a bar sink model with a shorter reach spout and with or without a spray rinse (p38).

The white porcelain lever handle can be changed to metal, black or cream levers (p42).

N.4341 - Parthian kitchen tap with porcelain lever

Perrin & Rowe have designed a collection of complementary detergent or soap dispensers. These are available in bench-mounted, wall-mounted and freestanding models (p41).

N.4700 - Parthian bar sink tap with porcelain lever

N.47XX - Parthian bar sink tap with porcelain lever and spray rinse

N.4346 - Parthian kitchen tap with porcelain lever and spray rinse

# Ionian with levers

The Ionian bridge tap is a design legend. Its iconic styling makes it a popular selection for both modern and traditional kitchens. The unmatched versatility and design qualities see the Ionian also being used in many bathroom and laundry applications.

The Ionian is available as bench or wall mounted. The bench mounted Ionian offers a spray rinse version (p38).

The porcelain lever handles can be changed to metal, black or cream levers (p42).

N.4193 - Ionian with porcelain levers

Pair your tap with a complementary classical bench mounted detergent or soap dispenser for a functional finishing touch (p41).

N.4173 - Ionian with porcelain levers & spray rinse

N.4183 - Wall mounted Ionian with porcelain levers

N.4193 - Ionian with porcelain levers in Nickel finish

# Ionian with crossheads

The Ionian with crossheads is the consummate bridge style tap, defined by its versatility and classic good looks. The beautiful porcelain indices set the scene to create a traditional kitchen sitting perfectly over a Butler's sink.

The Ionian is available as bench or wall mounted. The bench mounted Ionian is available with spray rinse (p38).

The Ionian with crossheads displays the iconic Perrin & Rowe English porcelain HOT and COLD indices.

Pair your tap with a complementary classical bench mounted detergent or soap dispenser for a functional finishing touch (p41).

N.4192 - Ionian with crossheads

N.4172 - Ionian with crossheads & spray rinse

N.4182 - Wall Ionian with crossheads

# Minoan

The distinctive style of the Minoan tap harks back to the style and form of the classical villa or bungalow. From art nouveau to art deco, the Minoan tap complements a range of decorative styles.

The Minoan is available in standard and spray rinse models (p38).

Pair your tap with a complementary classical bench mounted detergent or soap dispenser for a functional finishing touch (p41).

N.4385 - Minoan with crossheads  
N.4365 - Minoan with crossheads and spray rinse (shown)

# Mayans

The Mayans are perfect for the cottage kitchen sink, a laundry tub or a bathroom basin. Wall and bench mounted models allow for a range of settings and styles.

The Mayans have models with lever or crosshead handles and for a small additional cost the white porcelain levers can be changed to metal, black or cream levers (p42).

N.4332 - Pair of Mayan bibcock taps with levers

Pair your tap with a complementary classical bench mounted detergent or soap dispenser for a functional finishing touch (p41).

N.4322 - Pair of Mayan wall mounted taps with levers

N.4338 - Pair of Mayan bibcock taps with crossheads

N.4328 - Pair of Mayan wall mounted taps with crossheads

# Etruscan

The Etruscan is a blend of modern and traditional design, from its delicate handles with porcelain hot and cold indices to its gently curved spout.

The Etruscan is available in standard and spray rinse models (p38).

Perrin & Rowe have designed a collection of complementary detergent or soap dispensers. These are available in bench-mounted, wall-mounted and freestanding models (p41).

N.4320 - Etruscan  
N.4350 - Etruscan with spray rinse (shown)

# Aquitaine

The Aquitaine kitchen tap blends time-honoured French styling with single lever control. Beautiful and functional, the Aquitaine can be installed with the handle on the right, to the front or on the left for left-handed cooks. The Aquitaine is available in three models: standard, bar sink and with a spray rinse.

The metal lever handle can be changed to a white porcelain, black or cream lever for a small additional cost (p42).

The standard Aquitaine spout reaches 235mm and the bar sink tap spout 150mm. When a longer reach is required there is an optional 280mm reach spout (order code SP280) available for a small additional cost.

N.4741 - Aquitaine with metal lever

N.4746 - Aquitaine with metal lever & spray rinse

Perrin & Rowe have designed a collection of complementary detergent or soap dispensers. These are available in bench-mounted, wall-mounted and freestanding models (p41).

N.4739 - Aquitaine bar sink tap with metal lever (short reach spout)

N.4746 - Aquitaine with metal lever & spray rinse in Chrome finish

# Picardie

The Picardie is the classical French style kitchen tap. Perfect in scale and exquisitely designed, it is a beautiful feature in any kitchen, bathroom or laundry. Study the balance and detail and you will see why the Picardie is a favourite of designers around the world.

The Picardie is available in three models: standard, bar sink and with a spray rinse (p38).

The standard Picardie spout reaches 235mm and the bar sink tap spout 150mm. When a longer reach is required there is an optional 280mm reach spout (order code SP280) available for a small additional cost.

The metal lever handles can be changed to white porcelain, black or cream levers (p42).

N.4761 - Picardie with metal levers

N.4766 - Picardie with metal levers & spray rinse

Perrin & Rowe have designed a collection of complementary detergent or soap dispensers. These are available in bench-mounted, wall-mounted and freestanding models (p41).

N.4759 - Picardie bar sink tap with metal levers (short reach spout)

N.4761 - Picardie with metal levers in Chrome finish

# Provence with levers

The Provence kitchen tap is the epitome of French design and flair - extravagant but never over-done. Appropriately named after the beautiful region in France, the scale and detail of this bridge style tap make it a stunning centre-piece and topic of conversation in any kitchen.

The metal lever handles can be changed to white porcelain, black or cream levers (p42).

N.4751 - Provence with metal levers

The Provence is available with a spray rinse (p38) and when a longer reach is required, purchase a 280mm reach spout using order code SP280.

N.4756 - Provence with metal levers & spray rinse

Perrin & Rowe have designed a collection of complementary detergent or soap dispensers. These are available in bench-mounted, wall-mounted and freestanding models (p41).

N.4751 - Provence with optional black porcelain levers in Nickel finish

# Provence with crossheads

The Provence kitchen tap possesses all of the design characteristics you've come to expect of Perrin & Rowe - elegance, function, style and superior design.

The Provence with crossheads displays the iconic Perrin & Rowe English porcelain HOT and COLD indices.

N.4750 - Provence with crossheads

Available in standard and spray rinse (p38) versions, when a longer reach is required simply purchase a 280mm reach spout using order code SP280.

N.4755 - Provence with crossheads and spray rinse

Perrin & Rowe have designed a collection of complementary detergent or soap dispensers. These are available in bench-mounted, wall-mounted and freestanding models (p41).

N.4755 - Provence with crossheads and spray rinse

# Water filter taps

It is widely recognised that while we need a daily intake of water to maintain good health, tap water can sometimes contain harmful impurities and organisms. These include contaminants such as lead and asbestos and parasitic protozoan cysts such as Giardia, Entamoeba and Cryptosporidium.

There are a wide range of water filter and treatment options in the market and whichever you choose, you need an appropriate water dispenser tap.

Perrin & Rowe have designed three filtered water taps to complement their contemporary, classical and country tap styles.

1601 - Contemporary filter tap to suit Orbiq, Oberon, Mimas, and Io taps

N.1605 - Classical filter tap to suit Parthian, Phoenician & Ionian taps

1621 - Country filter tap to suit Aquitaine, Picardie & Provence taps

# Pot fillers

Perrin & Rowe pot fillers feature beautiful classical styling with a simple, graceful function designed to complete a cook's kitchen.

Pot fillers are mounted on the wall behind or near the stove top and feature dual shut off valves, one at the wall and one at the spout. The extendable tap reaches out to 600mm to fill large pots and folds back against the wall when not in use.

Perrin & Rowe's quarter-turn ceramic disc valves eliminate dripping and ensure durability, while their carefully designed wall mounting plate carries the weight of the tap and simplifies installation.

These taps can be connected to either the hot water or cold water supply.

Perrin & Rowe pot fillers are available in all finishes.

N.4798 - Pot filler with crossheads

N.4799 - Pot filler with levers

# Spray rinse

Perrin & Rowe's spray rinse kitchen taps are popular and highly functional fittings that make light work of washing the dishes, rinsing vegetables or filling pots and vases. The very flexible 1.2m hose makes it easy to operate and offers virtually unrestricted use.

The spray rinse is operated using a sophisticated diverter mechanism located within the body of the spray rinse taps. Turn on the tap so the desired mix of hot and cold water comes from the spout and then press the thumb button on the bench-mounted spray rinse to divert the flow to the rinse. Water will cease to flow from the spout of the tap and return once the spray button is released.

Each precision engineered spray rinse handle is designed to complement the style of its accompanying tap. By keeping the spray handle separate from the tap itself, Perrin & Rowe's iconic kitchen tap designs remain intact and are enhanced by this stylish and functional addition.

Please note that the spray rinse is an integral part of each spray rinse tap and cannot be added later to a standard tap.

Diagram of the underbench fittings of a spray rinse tap.

# Triflow technology

Triflow taps, with their groundbreaking internal workings, are the world's first three-way taps, dispensing not only hot and cold tap water, but also filtered water. Triflow taps are also a cost effective and eco-friendly alternative to bottled water.

With a simple flick of the additional Triflow lever, cold tap water is filtered at point of use and on demand by a high quality under-bench ceramic filter system. To prevent cross-contamination with the hot and cold tap water, the great tasting filtered water is delivered through a dedicated waterway in the tap's spout.

Diagram of triflow internal workings

# Fireclay Sinks

ACQUELLO  
ITALIA

*l'arte della terra*

## Fireclay Butler Sinks

Produced in two sizes, the Acquello single fireclay sinks serve as ideal wet areas for food preparation, with their versatility highlighted by the generous size and ability to easily accommodate large pans and oven trays.

Regarded as the collection's flagship, the Acquello double features a two large bowls, designed for rinsing and washing platters and cookware - a configuration that proves ideal for even the heaviest kitchen duties and the needs of the consummate entertainer. The epitome of design and functionality it makes the perfect centerpiece of any kitchen. The recessed partition serves as an overflow for the one tub while the other is in use.

Each fireclay butler sink is reversible to showcase either a plain or decorative exposed front.

Acquello FR610S (610mm wide) reversible single fireclay sink in white (shown)

Also available as:

Acquello SB600 (600mm wide) single fireclay sink in black (plain sides)

Acquello FR760S (760mm wide) reversible single fireclay sink in white

Acquello FR1000D (1000mm wide) reversible 50/50 split double fireclay sink in white (shown)

## Inset Fireclay Sinks

Acquello offer a curated selection of inset fireclay sinks, each with a unique configuration. Whether you require a double sink, a single sink with a drainer, or a combination of the two there is an offering to suit both kitchen or laundry needs.

For a scullery, kitchenette or secondary preparation area consider the unique Acquello round bowl.

Acquello FTM860D double inset fireclay sink

Acquello FTM860S single inset fireclay sink

Acquello FTM860T twin inset fireclay sink

Acquello FTM450R round inset fireclay sink

## Hooks, Baskets & Rails

To complete your kitchen, Perrin & Rowe accessories are exquisitely designed, carefully detailed and produced to the highest standard from solid brass. The extensive range includes hooks, baskets and towel rails which are useful in the kitchen and laundry. Towel rails can be shortened in length to suit any configuration.

These accessories are available in all finishes to perfectly complement the Perrin & Rowe range of taps.

## Soap Dispensers

Perrin & Rowe soap and lotion dispensers are made from top quality brass and feature a stainless steel pump mechanism which will not rust and discolour the contents.

They are available in free-standing, bench-mounted and wall-mounted models and in a range of designs to complement Perrin & Rowe tapware.

Single or double hooks and towel rings in Contemporary or Classical styling.

Baskets and rails – a range of sizes and lengths available in Contemporary or Classical styling.

Soap dispensers - bench, wall and freestanding models in Contemporary and Classical styling

# Custom design

## Bespoke levers

For a small additional cost, Perrin & Rowe's lever handled classical and country taps can be tailored to the room by changing the colour of the lever inserts. Lever handles which are white porcelain can be changed to black, cream or metal to complement or contrast with the tap finish. Metal country style levers can be changed to white porcelain, black or cream levers.

Black levers provide an accent and distinctive design element, especially when accompanying black granite or stone benchtops. Cream handles help to create harmony in a soft toned room and can blend with many of the benchtop colours now available to designers. Changing white porcelain levers to matching metal levers will give a tap a totally different look. The choice of levers is yours to create very special fittings for your kitchen, bathroom or laundry.

Tapware with bespoke cream levers

Tapware with bespoke black levers

Matching metal finish

## Bespoke spouts

The standard reach for a Perrin & Rowe kitchen tap is 235mm. For smaller sinks and basins, Perrin & Rowe have designed a range of bar sink taps with a smaller spout and a reach of 150mm.

If you require a longer spout for the Aquitaine, Picardie and Provence models, Perrin & Rowe also produce a spout with a 280mm reach. The order code is SP280 and this spout can be fitted at time of the tap purchase for a small additional cost.

Tapware with discreet 150mm reach spout.

Tapware with bespoke 280mm reach spout

## Ceramic disc valves

Superseding conventional tap washers, Perrin & Rowe taps are fitted with ceramic disc valves. Operating with a quarter turn from off to on, they provide many years of effortless and drip-free operation. Ceramic disc valve units are easily and inexpensively replaced and have a 5 year guarantee.

## Construction

Unlike some modern tapware that is made from chrome coloured plastics or aluminium alloys, Perrin & Rowe taps are still made from solid brass. Brass has proven to be the ultimate material for tapware, withstanding years of constant use and temperature variation without cracking or distortion.

## Water Efficiency Labeling and Standards (WELS)

Perrin & Rowe kitchen taps have a Four Star, 7.5 L/min rating under the WELS scheme.

## Installation

### Minimum inlet water pressure

Kitchen taps with a spray rinse require 1 bar/100kpa to operate the diverter mechanism

### Maximum inlet water pressure

5 bar/500 kpa

### Maximum inlet water temperature

85° Celsius

The English origin and superb engineering of Perrin & Rowe kitchen taps mean that they can be used in homes with either equal or unequal inlet water pressure and where there is low pressure from a supply tank, solar heating or continuous flow hot water heater. Please advise In Residence if you are purchasing tapware or shower fittings for installation into homes with low or uneven inlet pressures

## Specification sheets

To download specification sheets visit the individual product pages on our website: [www.inres.co.nz](http://www.inres.co.nz)

## Warranty

Perrin & Rowe tapware has a five year warranty against manufacturing defects.

Full details of the warranty can be found on our website.
